Subject: proposed revised local rules comments

I have read over the rules and thank you all very much for this hard work.

The only comment I have is that in 3.5 (C) (2) and (3) you have used the term "wage assignment."

I know the terms are almost interchangeable (income withholding order and wage assignment) but I think we have all been using the term income withholding order. And the federal form I believe requires that term. In addition, 1099 employees don't technically earn wages so I think it would be better if we stick to the term "income withholding order."

Sincerely,

Robert Barrasso
