Subject: RE: District Court Opinion
Date: March 26, 2014 at 6:28 AM
To: gt@ltinjurylaw.com

Mr. Trachtenberg:

We will add this decision to Westlaw, and it should appear online in a few business days.

I have also, tentatively, marked this decision for publication in the Federal Supplement. When the decision appears online, it should reflect __F.Supp.2d__ in the citation line. The time to reporter publication in that set is about six to eight months. The decision may not actually appear in print if future developments lessen its value to researchers.

Thank you for your submission and your interest in Westlaw products.

Regards,

Kate MacEachern

Subject: District Court Opinion

Please consider the attached District Court opinion for publication in the Federal Supplement.

It is an important decision where a federal district court rejected a provider's effort to "balance bill" the difference between its Medicaid reimbursement and its usual and customary charges to a responsible party that was primary to Medicaid. It is discussed on the Medicare Advocacy Recovery Website [here](#).

Please contact me if you have any questions, and I'd appreciate knowing if it is selected.
