To the Honorable Chief Justice Brutinel of the Arizona State Supreme Court,

¶1 The People respectfully request that Probate Rule 28.1 be amended in conformance with AZ Art 2 Sect 23 “Right to a Jury is inviolate” and the 10th Amendment “State Courts may provide the Juries, if not the People provide their own”. The People want juries to be applied only if necessary upon request of a litigant after the bench trial, because most Judges makes honest reasonable orders. We do not wish to produce Jury verdicts. We think the Courts should do that.

¶2 The People are working on producing Statutes but regardless, the Constitution is the Supreme Law of the Land and everybody swears an oath per US Constitution Art 6 Sect 3. If you have not waived your Right, then it still exists.

Sincerely,
/s/ Martin Lynch
