

Please consider my comments to the Rule 28 petition for changes to the Rule.

I feel the Court reporter's transcripts are more accurate than the transcripts from ER in that we don't have indistinguishable answers, and don't present the risk of having a retrial. We are in a position to clarify the record immediately. We are in a position to provide real time to the court and anyone else who needs it.

Thank you for your consideration,

Marge Harcarik
