

Please consider my comments to the Rule 28 petition for changes to the Rule.

The Judicial system and its integrity
is what is at issue and at risk.
If the accuracy of the record is
questioned as the norm due to the
record of proceedings being attempted
to be transcribed off of tapes with
no accountability to the transcribers,
then the system will start to crumble from
within. All judicial proceedings and
their record should continue to be held
with the highest regard.

Thank you for your consideration,

Linda Lopez, ^{No.} 50539
