My Comments pertain to Rule Petition No. R-08-0012

I am in favor of the proposed rule change.

Living in an "Over 55" mobile home park has been a completely new experience for me. And I might add that it is not always a pleasant one. Occasionally the rules, regulations or conditions of this type of housing are unreasonable or seem to be illegal and the only recourse we have is to have an administrative hearing on the issue.

The representation we are entitled to (hiring a lawyer) is often financially impossible for those of us living on a fixed income. Being able to have a knowledgeable individual to help us prepare the information we need so we can have a fair representation of the issue would be most helpful.

Sincerely,

Catherine Shively
