Attention: Rules Comment Section  
1501 West Washington  
Phoenix, Az. 85007-3231

Subject: Rule Change Petition NO. R-08-0012

I am writing this letter to address the concerns of Mobile Home Park residents not being able to have an advocate or a representative help the prepare a Hearing Petition and then also help them during the hearing.

Generally speaking we are concerned with older people going before a hearing Judge and because of many different disabilities, i.e. Stokes, Heart attacks, age causing diminished mental capabilities etc. or even just freezing because they have to represent themselves in front a Judge and a lawyer from the MHP side confusing them with legal questions that are hard for them to understand or fully comprehend. We do know this happens and would like to have these people get help in presenting their cases. Many of these people are on very fixed incomes and can not possibly employ an attorney, thus they are not always heard the way they should be.

I am appealing to you for this help in leveling the playing field so they are duly represented, with a minimum amount of financial outlay .

Thank you for your consideration.
